Title: THREATENING LETTER;
TED GUNDERSON

Synopsis: To open case with regard to a threatening letter received by Ted Gunderson.

Enclosure(s): Copy of letter and front of envelope received by Ted Gunderson.

Details: On 12/02/2003, the author received notification that a threatening letter containing powder had been brought to the Postal Inspector's office at 101 Convention Center Drive, Suite 1050, Las Vegas, Nevada.

The author and SA [redacted] responded to the Postal inspector's office and were met by [redacted] explained Ted Gunderson had received a threatening letter that contained powder and had brought it to [redacted] has had encounters with Gunderson in the past and felt he was unstable.

b6
b7C

On November 26, 2003, Gunderson retrieved his mail from AAA Mail Etc, PO Box 18000-259, Las Vegas, Nevada. Gunderson sat behind the wheel of his car in the parking lot and opened a letter addressed to him. Inside the letter was a tan, course powder he described as looking like ground concrete and a letter. When he pulled the letter from the envelope some of the powder got on him. Gunderson put the letter back into the envelope and drove to his residence where he put the letter into a plastic sandwich bag. Gunderson then washed his hands and his clothes. Gunderson was busy over the Thanksgiving holiday so he waited until December 2, 2003 to take the letter to the USPS.

When asked if there was any reason why anyone would send him a threatening letter, Gunderson told how a satanic cult out of Washington, D.C. called the Bohemian Grove (BG) has a contract out on him. The BG wants to kill Gunderson to prevent him from exposing that they are behind the terrorist movement. There are approximately 4,000,000 satanic cult members in the United States. BG is headed by the President of the United States. The cult has a poison that will kill someone in 30 seconds and will look like a natural heart attack.

Gunderson has a Internet website www.tedgunderson.com where he talks about conspiracy theories including the FBI having information about the 9/11 attacks in March of 2001 but did not act on the information. Gunderson has spent $8,000 of his own money to send copies of his 9/11 reports to every member of the Congress, Senate, Colin Powell and the President of the United States without any response.

[redacted] of the Clark County Fire Department checked the letter for radiation and also used an atmospheric monitor to check H2S, CO, O2 and LEL levels, no readings above background were noted.

b6
b7C

The author packaged the letter in one of the paint can kits used for possible biological materials. The letter will be sent the Nevada state laboratory in Reno, Nevada.

Las Vegas is opening a parallel investigation to Los Angeles. Los Angeles will be included in all communications regarding this case.

Dear Mr. Gunderson,

We hear you've been poking around in business to make our [redacted] look bad. If you value what little of a life you have chasing your imaginary conspiracies, you stupid old man, you'll steer far and wide of this business unless you want an enema of boiling lead serviced to your arse. You're a little too old to be running about like you're Fox bloody Moulder on the telly. That is fiction; this is real life. In real life the heroes are those who fight the imperial cunts like the US and the UK, those whose greatest weapon is the heart. I suggest you engage in a more leisurely pastime like paying a visit to that Jack Kavorkian fellow. I hear he has an excellent cure for life.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 12/02/2003

Ted Gunderson, born November 07, 1928, Social Security Account Number 361-16-5843 of 750 Royal Crest #237, Las Vegas, Nevada was interviewed at the United States Postal Service (USPS) office located at 101 Convention Center Drive, Las Vegas, Nevada. After being advised of the identities of the interviewing agents and the purpose of the interview, Gunderson provided the following information:

Gunderson retired from the FBI after 27 years, his last assignment was as Special Agent in Charge (SAC) Los Angeles. Gunderson does not like the FBI because he has provided information on a kidnaping ring and other crimes which have not been investigated by the FBI.

The last 23 or 24 years Gunderson has investigated satanic cults and has worked as a Private Investigator (PI) in Los Angeles, California. Gunderson does not have a license to be a PI in Las Vegas, Nevada.

On November 26, 2003, Gunderson retrieved his mail from AAA Mail Etc, PO Box 18000-259, Las Vegas, Nevada. Gunderson sat behind the steering wheel of his car in the parking lot and opened a letter addressed to him. Inside the envelope was a tan, course powder he described as looking like ground concrete and a letter. When he pulled the letter from the envelope some of the powder got on him. Gunderson put the letter back into the envelope and drove to his residence where he put the letter into a plastic sandwich bag. Gunderson then washed his hands and his clothes. Gunderson was busy over the Thanksgiving holiday so he waited until December 2, 2003 to take the letter to the USPS.

Although Gunderson has been threatened in the past, this is the first threat letter he has received. Gunderson is not concerned by the letter because he believes that the individual who sent it is a nut.

Gunderson believes that the wording at the end of the letter is Gaelic.

When asked if there was any reason why anyone would send him a threatening letter, Gunderson told how a satanic cult out of

Washington, D.C. called the Bohemian Grove (BG) has a contract out on him. The BG wants to kill Gunderson to prevent him from exposing that they are behind the terrorist movement. There are approximately 4,000,000 satanic cult members in the United States. Bohemian Grove is headed by the President of the United States. The cult has a poison that will kill someone in 30 seconds and will look like a natural heart attack.

Gunderson reviewed the letter in front of the interviewing agents and saw nothing that was familiar or pointed to anyone that he knew.

Gunderson knew that [redacted] who is referenced in the letter is a District Attorney in Los Angeles, California. When asked how he knew this, Gunderson replied that he must have read about [redacted] in newspapers. b6 b7C

Gunderson has been to the United Kingdom approximately six or seven years ago and has a friend that lives there.

Gunderson has a Internet website www.tedgunderson.com where he talks about conspiracy theories including the FBI having information about the 9/11 attacks in March of 2001 but did not act on the information. Gunderson has spent $8,000 of his own money to send copies of his 9/11 reports to every member of the Congress, Senate, Colin Powell and the President of the United States without any response.

Gunderson believes that he met Usama Bin Laden in Los Angeles in 1986.

Gunderson has agreed to provide copies of his reports, affidavits and a video tape that he made which discuss many of his theories to the interviewing agents.

Gunderson believes that he has been the subject of an assassination attempt. Gunderson avoids crowds and always travels with another person in an attempt to avoid being killed by the cult. A window in his daughter's apartment was shot out which he believes was directed at him.

b6
b7C

[redacted] of the Clark County Fire Department checked the letter for radiation and also used an atmospheric monitor to check H2S, CO, O2 and LEL levels, no readings above background were noted.

The letter was sent the Nevada State Health Laboratory (NSHL) in Reno, Nevada. The results of the test performed at the lab showed no Bacillus Anthracis, Yersinia Pestis, Francisella Tularensis of Brucella Species in the powder. The laboratory was unable to obtain a result for the real time Polymerase Chain Reaction (PCR) for biological agents. The PCR was inhibited or quenched by a highly colorimetric sample of inorganic origin.

b6
b7C

The NSHL report was faxed to [redacted] at the Hazardous Materials Response Unit (HMRU) for review. [redacted] determined the documents are safe to proceed with further examination at the FBI laboratory, based on the NSHL results.

This letter has been linked to multiple letters collected by the Los Angeles FBI office. The letter has the same post mark, return address and was signed in the same manner as the Los Angeles letters with what appears to be a Gaelic message and the name Gelynglas.

It is requested the tests be performed in the order listed, if possible. All results of examination should be compared to the results obtained in the Los Angeles case (279B-LA-234125).

A NOTE FROM...

DETECTIVE [redacted] b6 b7C
HOLLYWOOD GANG IMPACT TEAM DETECTIVES

Ted L. Gunderson
PO Box 18000-259
Las Vegas, NV 89114

Mr. Gunderson:

I understand that your efforts to communicate with the Los Angeles Police Department (LAPD) appear to have been frustrated. We will make every effort to accommodate you and address those safety concerns that fall under the purview of the LAPD. I am sure that you understand the resources of this office are limited to the local Los Angeles area.

I have received previous correspondence from you regarding your safety concerns. In my review, other than annoying telephone calls, I only discovered one incident that could be actionable by local law enforcement (LAPD). That incident is the "shots fired into an inhabited dwelling" or "vandalism" to your daughter's window. Normally, this type of investigation at the local law enforcement level requires immediate on scene review. We were not notified of the concern until months after the discovery. Additionally, no formal report of the annoying telephone calls was ever completed. Despite the delay, and due to your status in the law enforcement community, I contacted the Federal Bureau of Investigation Los Angeles Office (FBI LA) to make your concerns known. FBI LA referred me to FBI Las Vegas as that is your residence location. FBI Las Vegas requested that all original documents be forwarded to them.

I assure you that the Los Angeles Police Department is concerned for the safety of our public. To begin action in your case, we need a formal report made by yourself, or your daughter. If your daughter wishes to file a crime report concerning the damage to her window, please contact us so we can make arrangements to do an on scene investigation. Either one of you can make an annoying/threatening calls report in person, or over the telephone. Feel free to call me at the number below, or our STORM desk, at (213) 485-4328, to make that report. I currently have none of the previous correspondence as the originals were forwarded to FBI Las Vegas. Similarly, the original of the newest letter should be taken in to the local law enforcement agency there in Las Vegas, or delivered to FBI Las Vegas.

Please feel free to contact me at [redacted] I hope I can help you address your safety concerns.

Sincerely

b6

Re: Telephone Trap

Dear Detective [redacted]

I do not understand why I have not heard from you regarding my multiple requests via telephone and letter (dated November 14, 2003) for the information gleaned from the telephone trap you placed on my Los Angeles telephone line (323-651-0895).

I am a former fellow law enforcement officer. Someone attempted to kill me on October 15, 2003 and October 24, 2003. You are in possession of the information from the telephone trap as to the identity of the person(s) responsible for the seven threatening telephone calls made to me during October, 2003.

1. Are you conducting an investigation?
2. If so, why have you told me nothing?
3. If not, why not? Is there something you are not allowed to tell me?
4. Are the people involved so prominent in political circles that you are not allowed to implicate them?

If you do not wish to investigate this matter, please allow me the opportunity to investigate for myself. I have that right.

I have been sequestered in my Las Vegas condo for several months now and my daughter is constantly traveling. We must safeguard ourselves from these threats and attempts. Neither my daughter or myself wish to live my entire life in this fashion.

The enclosed letter proves that this case is on-going. It was a threatening letter received by me on November 26, 2003.

If you refuse to investigate and something happens to me and/or my daughter, my heirs will be compelled to file a lawsuit against the City of Los Angeles that will make headlines around the world, not to mention the millions of dollars when my family is the prevailing party due to your negligence.

What disturbs me the most is that we are in the same fraternity, fellow law enforcement officers. We should have a personal concern to protect each other.

If I do not receive a response to my request within 10 days of the receipt of this letter, I will assume you have no interest in this matter, and I will pursue my legal remedies.

Los Angeles, California 90012

b6
b7C

Dear Detective [redacted]

Enclosed please find copies of my two affidavits dated October 20, 2003, and November 4, 2003. I hand delivered to you a copy of the October 20, 2003, Affidavit on October 22, 2003.

Please review page 3 of the October 20, 2003, Affidavit. I am certain you will recall that I visited with you at the Hollywood precinct on October 4, 2003, after I received the third threatening telephone call. At that time you said you would place a trap on my Los Angeles telephone (323-651-0895). Thereafter, I received seven (7) more threatening telephone calls on that line.

Since I talked with you I have learned that there is a "contract" on my life. The first attempt was made on October 15, 2003, at approximately 10:15 a.m., when the window at my apartment (444 N. Sierra Bonita, Apt. 14) was shot out . I have a photo as evidence of this act.

A second attempt was made on October 24, 2003. See page 1 of the November 4, 2003 Affidavit for details.

I have left several telephone messages on your voice-mail with no response, which gives rise to this letter. I am now therefore, making the following requests:

1. Please forward me the results of the trap on (323) 651-0895 so that I can identify those who are attempting to kill me.

2. I would appreciate it if the Los Angeles Police Dept. would conduct an investigation before rather than after my assassination.

I am currently residing in Las Vegas. My home telephone number is (702) 791-5195.

I am looking forward to hearing from you soon. Please call if you have questions.

Sincerely,

Ted L. Gunderson

RE: More Fallout from 9-11 Terrorism Report

AFFIDAVIT
ADDENDUM No. 3

I, Ted L. Gunderson, the Affiant herein, being over the age of majority, and having first-hand knowledge of the facts and events described herein, continuing from October 19, 2003 until even date herewith, concerning covert surveillance of Affiant and Affiant's friends, harassment(s) in the form of telephone calls, and overt/covert threats against Affiant life, and lastly, attempts on Affiant life. Affiant does hereby state that this Affidavit contains the true facts as Affiant knows and understands them to be, and that this affidavit is true, correct and complete to the best of Affiant's knowledge, information and belief.

FACTS

1. On November 26, 2003, at around 4:00 p.m. Affiant retrieved his mail from his mailbox in Las Vegas. An associate accompanied him. In Affiant's mailbox was a letter from [redacted] b6 b7C
Affiant opened the letter and was immediately showered with a fine mist of red, brown and beige powder. Affiant immediately washed his hands at the mailbox center, then turned his attention to the letter (attached). This letter reads:

> "Dear Mr. Gunderson,
> We hear you've been poking around in business to make our [redacted] look bad. If you value what little of a life you have chasing your imaginary conspiracies, you stupid old man, you'll steer far and wide of this business unless you want an enema of boiling lead serviced to you arse. You're a little too old to be running about like you're Fox bloody Moulder on the telly. That is fiction; this is real life. In real life the heroes are those who fight the imperial cunts like the US and the UK, those whose greatest weapon is the heart. AFFIANT suggest you engage in a more leisurely pastime like paying a visit to that Jack Kavorikian fellow. AFFIANT hear he has an excellent cure for life.
>
> Anau'r euog ydyw'r gwir!
> Gelynglas"

b6 b7C

2. On November 26, 2003, Affiant was a guest on the radio talk show "Talk at 10:00", WFOB, 1430 A.M. of Fostoria, Ohio. When Affiant talked about the 9-11 cover-up, the show went off the air and all that was heard was static.

 a. This happened two times during the show, the first lasting three minutes, the second time lasting seven minutes. The host of the show told Affiant he could hear Affiant on the telephone and even though there were no technical problems transmitter or any of the equipment, only static was heard on the air. This had never occurred before on this station.

 b. Affiant talked to the radio talk show host on December 22, 2003, who advised Affiant that this problem has not recurred since November 26, 2003.

 c. The show during which Affiant was the guest was the only time in the history of the station when the station had the problem.

 d. If the Illuminati and New World Order satanists continue with this harassment, they will make a "poster boy" out of Affiant.

3. On December 1, 2003, at around 5:00 p.m., Affiant and two friends went to the substation for the Las Vegas Metropolitan Police to report Affiant's four handguns as stolen. When they returned to Affiant's truck, which was parked in front of the substation, Affiant immediately noticed that the windshield wipers had been engaged. The windshield wiper stick is located on the opposite side of the steering column from the directional signal stick.

4. On December 2, 2003, Affiant called the Postal Inspector's office at (702) 796-5272 and described the threatening letter to [redacted] who then asked Affiant to bring the letter described in Item 1 above (see attached) and the contents into the Postal Inspector's office. Affiant immediately took the threatening letter to the Postal Inspector's office at 101 Convention Center drive, Suite 1050 in Las Vegas, Nevada. b6 b7C

 a. When Affiant arrived at the Postal Inspector's Office, he was greeted by [redacted] who informed someone behind the locked door of Affiant's arrival.

 b. Later, FBI Agents [redacted] and [redacted] along with [redacted] the Postal Inspector, interviewed Affiant for approximately one hour. b6 b7C

 c. The interview covered the threatening letter as well as the cases described in the attached letter dated 12/09/03 written by Affiant to [redacted] FBI Special Agent-in-Charge in Las Vegas, Nevada. b6 b7C

The foundation of the law, commerce and the entire justice system is firmly established upon telling the truth [e.g., "I solemnly swear to tell the truth, the whole truth ..."]. In furtherance of that legal maxim Affiant solemnly does state that: I declare under penalty of perjury that the foregoing is true and correct while also being certain and complete to the best of my knowledge – under penalty of perjury pursuant to *Title 28 U.S.C. § 1746.*

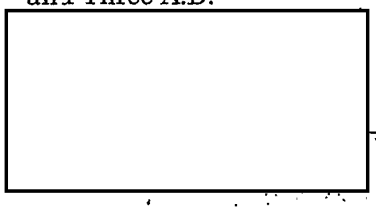

This Affidavit executed this *ninth* day of December, 2003.

PROOF OF SERVICE BY MAIL

I am over the age of 18 and I am not a party to the action herein.

I served the below listed document(s) described as:

Ted Gunderson's letter dated December 29, 2003
RE: Telephone Trap Information with exhibits

on **12/29/03** on the following parties by mailing the above document(s) as follows:

b6
b7C

Detective [redacted]
Los Angeles Police Dept.
150 N. Los Angeles Street
Los Angeles, California 90012

I placed the above document into a sealed envelope and did mail by Certified Mail the entire document, postage prepaid, to the above party at the above address.

Service on the Principal is service upon the Agent and service upon the Principal.

I declare under penalty of perjury that the above is true and correct.

Executed on **12/29/03**.

Title: THREATENING LETTER;
TED GUNDERSON

Date specimens received: January 23, 2004

Specimens submitted under cover of communication dated January 7, 2004 and examined in the Trace Evidence Unit:

Q1 White envelope postmarked "MANCHESTER NH 031 PM 22 NOV 2003" bearing a typed address "Ted Gunderson PO BOX 18000-259 Las Vegas NV 89114"

Q2 Typewritten letter beginning "Dear Mr. Gunderson, We hear you've..."

Q3 Unknown substance from Q1-Q2

This report contains the results of the trace evidence examinations.

Results of Examinations:

An animal fur hair too limited to be of value for meaningful comparison purposes was found on specimen Q1.

This Report is Furnished for Official Use Only

279B-LV-37611

No other hairs were found on specimens Q1 through Q3.

Textile fibers of various types and colors were found on specimen Q1. These fibers have been preserved on a glass microscope slide for future comparison purposes.

No fibers were found on specimens Q2 and Q3.

Remarks:

The results of the Chemistry, Questioned Document, Latent Print and DNA examinations and the disposition of the submitted items will be the subject of separate communications.

Title: THREATENING LETTER;
TED GUNDERSON

Date specimens received: January 23, 2004

The item below was examined in the Chemistry Unit::

Q3 Unknown substance from Q1-Q2

This report contains the results of the chemistry examinations.

Results of Examinations:

Specimen Q3 was consistent with a mixture of potassium ferricyanide, barium carbonate and starch. Potassium ferricyanide has various uses including photography, blueprints, and wood staining. Barium carbonate is used as a rat poison, as well as a component in ceramics, paints, and enamels. The unknown substances (Q3 and Q6) in the Los Angeles submission (279B-LA-234125, 040224010 PM PU) were consistent with a mixture of potassium ferricyanide, barium carbonate and starch, as well as zinc phosphide, which was not detected in specimen Q3 above.

1 - Los Angeles (279B-LA-234125)

This Report is Furnished for Official Use Only

279B-LV-37611

The following techniques were used in the analysis of specimen Q3: visual and microscopic examination, infrared spectroscopy, x-ray powder diffractometry, and scanning electron microscopy with energy dispersive x-ray spectroscopy.

Remarks:

The item listed above will be retained in the FBI Laboratory. The final disposition will be the subject of a separate communication.

Date specimens received: January 23, 2004

The following specimens were examined in the Questioned Documents Unit:

Q1 White envelope postmarked "MANCHESTER NH 031 PM 22 NOV 2003" bearing printed address "Ted Gunderson PO BOX 18000-259 Las Vegas NV 89114"

Q2 Printed letter beginning "Dear Mr. Gunderson, We hear you've..."

The results of the questioned document examinations are included in this report.

(1)- Los Angeles (279B-LA-234125)

This Report is Furnished for Official Use Only

279B-LV-37611

Results of Examinations:

The submitted envelope and threatening letter, designated Q1 and Q2, were searched in the Anonymous Letter File without effecting an association. The appropriate information was added to this file for future reference.

No indentations or watermarks were observed on Q1 and Q2 which would indicate the source of the envelope and letter.

The printed text appearing on Q1 and Q2 was produced by an office machine system utilizing ink jet technology. This technology is commonly found on ink jet printers and copiers.

The 2002, thirty-seven-cent, self-adhesive "Antique Toys" USA postage stamp submitted affixed to the Q1 envelope was compared to the "Antique Toys" postage stamps submitted in bureau case file number 279B-LA-234125 (Laboratory number 040224010 PF MM). It was determined the bottom edge of the Q1 stamp was at one time attached to the postage stamp affixed to the Q1 envelope submitted in the Los Angeles file number.

Remarks:

A digital record of Q1 and Q2 is retained. At the conclusion of the remaining FBI Laboratory examinations specimens Q1 and Q2 will be returned under separate cover.

Q16	Torn piece of paper bearing typewriting beginning "[redacted]..."
Q17	Torn piece of paper

b6
b7C

This report contains the results of the questioned document examinations.

Results of Examinations:

Anonymous Letter File

The submitted threat letters and corresponding envelopes were searched in the Anonymous Letter File and specimens Q1, Q2, Q4 and Q5 were associated by wording to the threat letter and envelope submitted by the Las Vegas Division in Bureau file number 279B-LV-37611 and assigned Laboratory number 040123015 MM.

Postage Stamps

The 2002, thirty-seven cent, self-adhesive "Antique Toys" USA postage stamps submitted affixed to the Q1 and Q4 envelopes were intercompared as well as compared to the "Antique Toys" postage stamp submitted in Bureau case file number 279B-LV-37611. It was determined that these three stamps originated from the same postal stamp booklet in the following arrangement: the left edge of the Q1 postage stamp was at one time attached with the right edge of the Q4 postage stamp and top edge of the Q1 stamp was at one time attached to the bottom edge of the Q1 postage stamp submitted in the Las Vegas file number. A digital printout of this arrangement is enclosed.

The 2002, sixty cent, self-adhesive "Coverlet Eagle" postage stamp affixed to the Q7 envelope may be associated with other stamps originating from the same sheet.

Should any like stamps be located during the investigation they may be submitted to this Laboratory for comparison. The Q7 stamp should be resubmitted at that time.

Torn Edges

The torn edges of Q16 and Q17 may be positively associated with the remainder of the sheet(s) from which they were torn. Should any suspect paper with torn edges be located during the investigation, they may be submitted to this Laboratory for comparison. The Q16 and Q17 paper fragments should be resubmitted at that time.

Indented Writing/Indentations

Indentations were observed on Q17 which originate from the typewritten impression appearing on Q16. No remaining indented writing/indentations was observed on the submitted specimens.

Watermarks

No watermarks were observed on Q1, Q2, Q4, Q5 and Q7 through Q17 which would indicate the source of the paper. However, the Q7 envelope has a blue security pattern and a manufacturer's mark that indicates it was manufactured by Mead/Westvaco in their Alexandria, Pennsylvania Plant. For your investigative assistance, Mead/Westvaco School and Office Products Division's offices are located at Courthouse Plaza Northeast Dayton, Ohio 45463.

Printing

The printed text appearing on Q1, Q2, Q4 and Q5 was produced by an office machine system utilizing ink jet technology. This technology is often found on ink jet printers and copiers.

Typewriting

Specimens Q8 through Q16 were produced utilizing a single element typewriter and the style of the type most closely corresponds to the Laboratory standards for a Brougham style of type found on Brother typewriters and possibly others. No typewriting defects were observed however, the typewritten impressions were made utilizing a carbon film lift-off ribbon which retains readable text. This typewriter ribbon(s) as well as the lift-off correction ribbon(s) may be positively identified to this questioned threat letter. Should any suspect typewriter ribbons be located during this investigation, they should be submitted to this Laboratory for comparison. Specimens Q8 through Q16 should be resubmitted at that time.

Handwriting

Should a handwriting comparison be requested in this matter, it is suggested that dictated and undictated known writing be obtained from logical suspects and submitted to this Laboratory for comparison. Dictated exemplars should be hand printed in pencil on business size envelopes using the addresses from the Q7 envelope. Each envelope should be removed from the view of the writer upon completion and the writer should not view the

questioned envelope. Possible sources of normal course of business undictated known writing include personal correspondence, business records, and personnel forms.

Remarks:

A digital record of the above listed specimens is retained. These specimens will be returned under separate cover at the conclusion of the FBI Laboratory examinations.

Synopsis: The following electronic communication requests the status of the above-captioned investigation.

Details: Recently, the West Region Team of the Weapons of Mass Destruction Operations Unit (WMDOU), has conducted a file review of all WMD cases for the period ending **9/28/04.**

WMDOU has been conducting these file reviews in order to develop a better understanding of the field's current investigative workload and to close those investigations that have been declined for prosecution and/or inactive for over 90 days.

FBI Las Vegas is requested to provide WMDOU with the following information by **3/11/05.**

- Background
- Current Situation
- Judicial Status

FBI Las Vegas is instructed that if this matter has been inactive for more than 30 days it should be placed in

279B-LV-37611-12

"pending inactive status." In the event this case has been inactive for more than 90 days and there are no other avenues of investigation in which to pursue, and/or a prosecutive declination has been received, WMDOU requests FBI Las Vegas make a determination as to whether or not to place the matter into a "closed status."

FBI Las Vegas is requested to provide the above-requested information via electronic communication to the attention of Supervisory Special Agent [redacted] and Intelligence Analyst [redacted], Room 4371. b6 b7C

FEDERAL BUREAU OF INVESTIGATION
QUANTICO, VA 22135

To: Las Vegas

Date: July 6, 2005

Case ID No.: 279B-LV-37611-15

Lab No.: 040123015 PF HZ

Reference: Communication dated January 7, 2004

Your No.:

Title: THREATENING LETTER;
TED GUNDERSON

Date specimens received: January 23, 2004

The specimen listed below was examined in DNA Analysis Unit I:

Q1 White envelope postmarked "MANCHESTER NH 031 PM 22 NOV 2003" bearing a printed address "Ted Gunderson PO BOX 18000-259 Las Vegas NV 89114"

This report contains the results of the nuclear DNA analysis examinations.

Results of Examinations:

Deoxyribonucleic acid (DNA) was isolated from specimen Q1 (a sample taken from the flap and corresponding portion of this envelope) and subjected to DNA typing by the polymerase chain reaction (PCR) at the amelogenin sex typing locus and the thirteen (13) short tandem repeat (STR) loci of the AmpFℓSTR® Profiler Plus™ *ID* and AmpFℓSTR® COfiler™

1 - 279B-LA-234125

279B-LV-37611-15

This Report is Furnished for Official Use Only

PCR Amplification Kits. The DNA typing results are detailed below.

The DNA typing results obtained from specimen Q1 were compared to those obtained from specimens Q1 and Q7 (each a sample taken from the flap and corresponding portions of these envelopes) submitted under cover of the communication dated December 5, 2003, and assigned FBI File Number 279B-LA-234125 and FBI Laboratory Number 040224010 PF HZ. The latter specimens Q1 and Q7 will hereafter be referred to as Q1(279B-LA-234125) and Q7(279B-LA-234125), respectively, to further distinguish them from the other specimens tested by the FBI Laboratory in this matter.

The STR typing results for specimen Q1 indicate the presence of DNA from two or more individuals. Based on the amelogenin typing results, the major contributor to the mixture of DNA obtained from specimen Q1 is male. The STR typing results for the major contributor to the mixture of DNA obtained from specimen Q1 will be entered into the Combined DNA Index System (CODIS). Additionally, a known blood sample from any individual who may have contributed biological material to specimen Q1 should be submitted to the Laboratory for comparison purposes.

It is noted that the STR typing results obtained from the major contributor to the mixture of DNA obtained from specimen Q1 and the results from specimen Q1(279B-LA-234125) and those from the major contributor to the mixture of DNA obtained from specimen Q7(279B-LA-234125), are the same and, therefore, are consistent with having arisen from the same individual.

No other nuclear DNA analysis examinations were conducted.

Remarks:

Upon completion of all the requested examinations, the submitted items will be returned to you under separate cover. In addition to the evidence in the case, any remaining processed DNA from specimens examined by DNA analysis will also be returned to you. The processed DNA can be found in a package marked PROCESSED DNA SAMPLES: SHOULD BE REFRIGERATED/FROZEN. It is recommended that these samples be stored in a refrigerator/freezer and isolated from evidence that has not been examined.

The results of other Laboratory examinations will be the subjects of separate reports.

Q4 Envelope postmark "MANCHESTER NH 031 PM 22 NOV 2003" bearing printed address [redacted] (1B4/E03654774) b6 b7C

Q7 Envelope postmarked "NEWELL _ _ 2003 26050" bearing hand printed address "Giorgio Armani c/o store manger, extremely important!!! 436 N Rodeo Dr Beverley Hills, CA 90210" (1B1/E02147716)

This report contains the results of the nuclear DNA analysis examinations.

(1) 279B-LV-37611

279B-LV-37611-18

This Report is Furnished for Official Use Only

Results of Examinations:

Deoxyribonucleic acid (DNA) was isolated from specimens Q1 and Q7 (each a sample taken from the flap and corresponding portion of these envelopes) and subjected to DNA typing by the polymerase chain reaction (PCR) at the amelogenin sex typing locus and the nine (9) short tandem repeat (STR) loci of the AmpFℓSTR® Profiler Plus™ *ID* PCR Amplification Kit. Insufficient DNA was obtained from specimens Q1 and Q7 for typing at the genetic loci of the AmpFℓSTR® COfiler™ PCR Amplification Kit. The DNA typing results are detailed below.

The DNA typing results obtained from specimens Q1 and Q7 were compared to those obtained from specimen Q1 submitted under cover of the communication dated January 7, 2004, and assigned FBI Case ID Number 279B-LV-37611 and FBI Laboratory Number 040123015 PF HZ. The latter specimen Q1 (a sample taken from the flap and corresponding portion of this envelope) will be referred to as specimen Q1(279B-LV-37611) to distinguish it from other specimens tested by the FBI Laboratory in this matter.

The STR typing results for specimen Q1 indicate the presence of DNA from a single individual. Based on the amelogenin typing results, the DNA obtained from specimen Q17 is of male origin.

The STR typing results for specimen Q7 indicate the presence of DNA from three or more individuals. Based on the amelogenin typing results, the major contributor to the mixture of DNA obtained from specimen Q7 is male.

It is noted that the DNA typing results from specimen Q1 and from the major contributor to the mixture of DNA obtained from specimens Q7 and Q1(279B-LV-37611) are the same and, therefore, are consistent with having originated from the same individual.

The STR typing results for specimens Q1 and Q7 do not meet the requirements for the National DNA Database (NDIS); however, these results will be entered, searched, and maintained in the local FBI database. It is noted that the STR typing results for the major contributor to the mixture of DNA obtained from specimen Q1(279B-LV-37611), which are consistent with those obtained from specimens Q1 and Q7, will be entered into the Combined DNA Index System (CODIS). Additionally, a known blood sample from any individual who may have contributed biological material to specimens Q1 and Q7 should be submitted to the Laboratory for comparison purposes.

No detectable DNA was recovered from specimen Q4 (a sample taken from the flap and corresponding portion of this envelope); therefore, no short tandem repeat (STR) analysis was conducted.

No other DNA analysis examinations were conducted.

AmpFℓSTR® Profiler Plus™ *ID*

SPECIMEN	D3S1358	vWA	FGA	D8S1179	D21S11	D18S51	D5S818	D13S317	D7S820
Q1	14,15	14,17	20,21	10,12	29,31	12,16	12,13	8,10	10,12
Q7 (Major Contributor)	14,15	14,17	20,21	10,12	29,31	12,16	12,13	8,10	10,12

Remarks:

Upon completion of all the requested examinations, the submitted items will be returned to you under separate cover. In addition to the evidence in the case, any remaining processed DNA from specimens examined by DNA analysis will also be returned to you. The processed DNA can be found in a package marked PROCESSED DNA SAMPLES: SHOULD BE REFRIGERATED/ FROZEN. It is recommended that these samples be stored in a refrigerator/freezer and isolated from evidence that has not been examined.

The results of the other requested Laboratory examinations will be the subjects of separate reports.

Title: THREATENING LETTER;
TED GUNDERSON

Synopsis: To close case and forward collected evidence to Los Angeles Division.

Details: In a communication dated 09/16/2005 the FBI Latent Print Operations Unit reported that two latent fingerprints were developed on the submitted evidence. Automated latent finger print searches were conducted, but no identification was effected.

Since no further investigative leads were developed through the FBI laboratory and all other investigations have produced no further leads it is request that the above case be closed.

Upon closing of the of the case it is requested that the evidence collected (1B1, bar code E03664722) be sent to the LA Division for inclusion in their ongoing investigation.

Title: THREATENING LETTER;
TED GUNDERSON

Synopsis: To request evidence be removed from ACS.

Details: The evidence collected (1B1, E03664722) and submitted to the FBI Laboratory for the above captioned case and the chain of custody for same can not be located. Since the case is closed it is requested that the Las Vegas Evidence Control Technician remove the evidence from ACS.

This report contains the results of the latent print examinations.

Results of Examinations:

Three latent fingerprints of value were developed on Q8, Q15, and Q17. No latent prints of value were detected on the remaining specimens.

The three latent fingerprints developed in the captioned case were compared with the two unidentified latent fingerprints previously reported in Case ID No. 279B-LV-37611, Laboratory No. 040123015, but no identifications were effected.

Automated latent fingerprint searches were conducted, but no identifications were effected.

Remarks:

The specimens and photographs of the developed latent prints are being returned under separate cover.
